Join our campaign - Farmgate's Rural Crime Reduction Strategy

Partner with us in our three step strategy to keep you and yours safer and sounder. Install a Farmgate security solution on your property, engage with your neighbors and community and you are under way.

Your FARM

- Fixed bullet or license plate cameras at your property entrance to capture all vehicle coming and going.
- High quality surveillance cameras for the sheds, diesel tanks, vats and home.
- Solar Floodlights around the property
- Farmgate roadside sign to act as an extra deterrent.

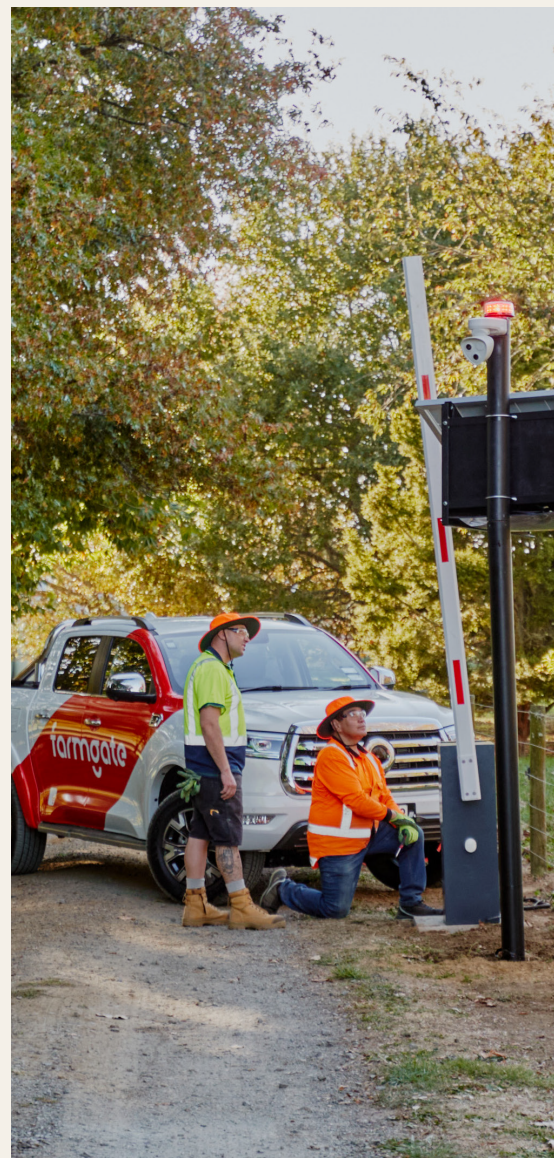

Your ROAD

- Camera deployments and roadsigns on private entrance ways.
- Engage your neighbors in also protecting their property.
- Saturate the road with visual signs and deterrents (aim for 25-30% minimum coverage).

Your COMMUNITY

- Identify key areas and roads in and out of your rural community.
- Deploy license plate cameras (LPR) with stolen vehicle alerts on these roadsides and key locations.
- Encourage community wide involvement / organise a
- community meeting with Farmgate.

See the 'Harry & Farmgate' video on our website at:
www.farmgate.co.nz

My Farm

My Road

My Community

1. Roadside community camera at start & end of the road x2 (My community)

3. Roadside sign at property entrance ways (My Farm)

2. Cameras at entrances & on property over key assets, tanks and house (My Road)
